

#### **Plant Part Cards**

**Instructions:** Print out cards on heavy paper (or draw plants on index cards). Cut along the dotted lines.

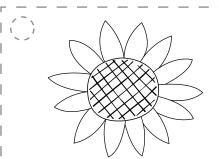

### **Plant Part Description Cards**

**Instructions:** Cut out the cards. Put them in a sandwich bag. Or make a flip book: hole punch a small circle in the corner of each card. Thread a piece of string or ribbon through the holes. Tie it loosely so you can flip through the cards.

# flower

Flowers contain seeds that will grow into new plants.

# leaves

Leaves take in sunlight that the plant uses to make food.

## seed

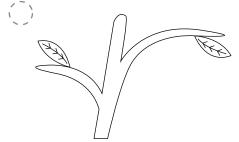

Seeds hold nutrients such as food and vitamins that a plant needs as it begins to grow.

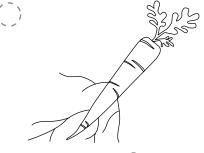

# fruit

Fruits contain seeds that will grow into new plants.

### stem

A stem supports the plant and moves water and nutrients from the roots through the plant.

### root

Roots push down into the soil and take in water, food, and nutrients from the soil for the plant.
